The Communication Mastery Seminar with Monty Vaughn

The Human Skill AI Can't Replace

Speak so people listen, trust you, and act.

AI can draft your words. It can't stand in the room, read the faces, earn trust, or move people to act. You can. In a day and a half, this hands-on seminar gives you the confidence and presence that get you noticed, believed, and promoted.

Monty Vaughn: 40+ years turning nervous speakers into confident ones.

What you'll walk away with

Enthusiasm and Confidence in front of any room → Get noticed, get heard, get promoted.
A clear, organized message → Shorter meetings and faster decisions.
The skill to read your audience → Earn trust and buy-in from clients and colleagues.
Persuasion built on story and integrity → Close more sales and grow revenue.

Nervous? Good. We'll put that energy to work.

Even seasoned speakers get nervous. It's a physical response, not a character flaw. We won't pretend to make it disappear. You'll learn to turn that adrenaline into energy the room can feel.

How it works: you learn by doing

In each of 11 modules, Monty teaches and demonstrates a skill. Then you stand up, practice it, and get coached on the spot. Expect a guide at your side, not a lecture from the stage.

The 11 modules: Listening · The Speaker · Physical Speaking Skills & Vivid Language · Delivery Mastery · Message & Purpose · Audience Analysis · The Powerful Message · Speech Organization · The Power of Story · Speaking with Integrity · Persuasion & Command

Your instructor

Monty Vaughn has coached speakers at Texas Instruments, and his career also spans McGraw-Hill; Holt, Rinehart and Winston; Macmillan; Harper & Row; and State Farm, where he served as an Insurance and Financial Review Specialist. He holds a B.S. from the University of Central Florida with an emphasis in Speech, Theatre, and English.

What graduates say

"His real world approach and his belief in what he does really differentiate your seminar from countless ones we attend during our careers at TI. So, triple his pay and shorten his work week; he does a great job!!"

— Ed Ossie, Regional Sales Manager, Texas Instruments (now a technology CEO)

"Your class was the first during my seven years with TI that I really enjoyed... I learned a great deal about speaking techniques during such a short time."

— Bob Winn, Texas Instruments

"The way you took us through the paces, transforming us from timid foil-readers into courageous speakers, was inspiring."

— TI Graduate Letter

"Best course I have ever had." • *"Excellent instructor. Knew how to generate energy."* • *"Instructor is excellent and cares about people."* • *"Well done — Monty is a great inspiration."*

— Seminar participant evaluations

You already have something worth saying. Let's make it unforgettable.
